Dear

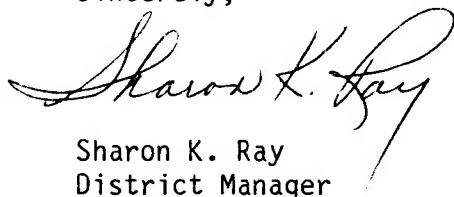

You and your associates are cordially invited to attend a presentation by Storage Technology Corporation (STC) on Wednesday, April 13, 1983 at the Marriott Hotel in Tysons Corner, Virginia from 9:00 a.m. to 2:30 p.m. (lunch included).

The theme of the program will be "Advancements in Data Technology" presented by several of our key executives, including Gene DeKoster, Vice President of Marketing, Planning and Requirements and Jesse Aweida, Chairman of the Board of STC. These people will be discussing current technological advancements as well as future advancements. Mr. Aweida will be discussing the future of our industry and STC's place in that industry.

For those of you who attended our seminar in 1982 and found it very worthwhile, let me assure you that this year's seminar will be equally informative but with new technologies and subject matter to be presented.

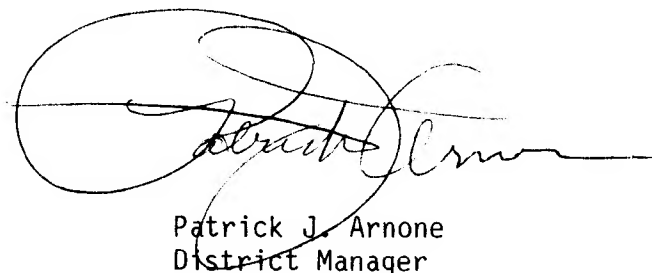

Details of the presentation as to agenda and directions to our location will be forthcoming. We are looking forward to having you and your associates join us on April 13, 1983.

Sincerely,

Sharon K. Ray
District Manager

SKR/tp 0917M

Patrick J. Arnone
District Manager
